

# MICHIGAN STRUCTURE INSPECTION MANUAL (MiSIM)

# **MICHIGAN STRUCTURE INSPECTION MANUAL**

## **BRIDGE INSPECTION**

### **PREFACE**

#### **Purpose**

The Michigan Structure Inspection Manual (MiSIM) has been developed to provide bridge safety inspectors and bridge owners with guidance for meeting the requirements of the National Bridge Inspection Standards (NBIS) and Michigan's Bridge Inspection Program policies and procedures. This manual provides guidance for inspecting structures meeting the NBIS definition of a bridge and for non-NBI structures with span lengths less than 20 feet, pedestrian, and railroad structures.

The purpose of the MiSIM is to reinforce the policies and procedures of the Michigan Department of Transportation (MDOT), ensure statewide consistency with reference to completing and documenting the condition of structures, and to improve Federal Highway Administration (FHWA) compliance. The MiSIM is divided into multiple chapters containing applicable bridge inspection program information.

#### **Goals/Objectives of this Manual**

The most important goal of this manual is to clarify the minimum requirements, inspection procedures, and documentation for completing the safety inspections of in-service bridges and structures in the state of Michigan.

The specific objectives of this manual are outlined as follows:

- To assemble in one manual the primary instructions needed by bridge inspectors performing safety inspections of structures in Michigan that are supplementary to the various FHWA and AASHTO publications.
- To provide a document that is aimed towards improving the quality of inspections and clarifying inspection procedures. It is anticipated that this manual will help promote uniformity and consistency in inspections from inspector to inspector, from agency to agency, and from year to year.
- To provide guidance and advice for the most difficult inspection items, condition ratings and appraisals of structural components.
- To increase the overall understanding of Michigan's Structure and Bridge Inspection Program for all those responsible or involved with the management and safety of Michigan's structures and bridges.

# **MICHIGAN STRUCTURE INSPECTION MANUAL**

## **BRIDGE INSPECTION - PREFACE**

### **References**

There are a number of documents and manuals that are used as a reference throughout this manual. Several of these references provide the initial basis and background material for development of this manual.

#### **Federal and National Manuals**

- National Bridge Inspection Standards Federal Code of Regulations, 23 CFR 650 (NBIS)
- FHWA Recording and Coding Guide for SI&A of the Nations Bridges
- AASHTO Manual for Bridge Evaluation, Current Edition (MBE)
- AASHTO Manual for Bridge Element Inspection (MBEI)
- NHI Bridge Inspection Reference Manual, Current Edition (BIRM)

#### **Michigan Specific Guides and Manuals**

- MDOT Bridge Inspection Rating Guides
- Michigan Bridge Element Inspection Manual (MiBEIM)
- Michigan SI&A Coding Guide
- MDOT Bridge Inspection Frequency Guidelines
- MDOT Bridge Analysis Guide (Current Edition)

BRIDGE INSPECTION**

**TABLE OF CONTENTS**

**CHAPTER 1 – PROGRAM REQUIREMENTS**

1.01 Purpose.....	1-1
1.02 Laws and Regulations.....	1-1
1.03 Federal Highway Administration Oversight.....	1-2
1.04 Organization and Responsibilities.....	1-3
1.04.01 Bridge Inspection Program Manager.....	1-4
1.04.02 Bridge Owner.....	1-7
1.04.03 Inspection Team Leader.....	1-8
1.04.04 Load Rating Engineer.....	1-9
1.05 Qualifications.....	1-10
1.05.01 Program Manager Qualifications.....	1-10
1.05.02 Team Leader Qualifications.....	1-10
1.05.03 Underwater Bridge Inspection Diver.....	1-12
1.05.04 Load Rating Engineers.....	1-12

**CHAPTER 2 - QUALITY ASSURANCE & QUALITY CONTROL**

2.01 Purpose.....	2-1
2.02 Responsibilities.....	2-1
2.03 Comparison of QC & QA.....	2-1
2.04 Quality Control Requirements.....	2-2
2.05 Quality Assurance Requirements.....	2-3

**CHAPTER 3 – INSPECTION FREQUENCY**

3.01 Purpose.....	3-1
3.02 Inspection Frequency – Reporting Field Data.....	3-1
3.03 Inspection Frequency – Inspection Team Leader Responsibilities.....	3-1
3.04 Inspection Frequency – Bridge Owner Responsibilities.....	3-2
3.05 Verification of Inspection Timeliness and Non-Compliance Process.....	3-2
3.06 Inspection Frequency – Bridge Inspection Program Manager Responsibilities.....	3-3

**CHAPTER 4 – BRIDGE FILES**

4.01 Purpose.....	4-1
4.02 Responsibilities.....	4-1
4.03 Inspection Reports.....	4-2
4.04 Construction and Maintenance Documents.....	4-2
4.05 Significant Correspondence.....	4-3
4.06 Photographs.....	4-4
4.07 Accident Records.....	4-4
4.08 Rating Records, Posting, and Permit Loads.....	4-4

**MICHIGAN STRUCTURE INSPECTION MANUAL**  
**BRIDGE INSPECTION – TABLE OF CONTENTS**

4.09 Waterway Data .....	4-5
4.10 Traffic Data .....	4-5

**CHAPTER 5 – ROUTINE and CONDITION BASED IN-DEPTH INSPECTION**

5.01 Purpose .....	5-1
5.02 Routine Inspection Types .....	5-1
5.02.01 Initial Inspections .....	5-2
5.02.02 Routine NBI and Element Level Inspections .....	5-4
5.03 Routine Inspection Procedures - Bridge Owner Responsibilities .....	5-5
5.04 Routine Inspection Procedures – Inspection Team Leader Responsibilities .....	5-6
5.05 Surface (BSIR #1, SI&A Item 58A) .....	5-6
5.05.01 Concrete Deck Surface Routine NBI Inspection Procedures .....	5-7
5.05.02 Concrete Deck Surface Michigan Bridge Element Inspection .....	5-8
5.05.03 Thin Overlay Wearing Surface Routine NBI Inspection .....	5-9
5.05.04 Thin Overlay Wearing Surface Michigan Bridge Element Inspection .....	5-11
5.05.05 Bituminous Wearing Surface Routine NBI Inspection .....	5-12
5.05.06 Bituminous Wearing Surface Michigan Bridge Element Inspection .....	5-14
5.05.07 Timber Wearing Surface Routine NBI Inspection .....	5-15
5.05.08 Timber Wearing Surface Michigan Bridge Element Inspection .....	5-16
5.05.09 Deck Top Surface Work Recommendations .....	5-17
5.05.10 Deck Surface Request for Action .....	5-18
5.05.11 Deck Surface In-Depth Inspection .....	5-18
5.06 Expansion Joint (BSIR #2) .....	5-21
5.06.01 Expansion Joint Routine NBI Inspection .....	5-21
5.06.02 Expansion Joint Michigan Bridge Element Inspection .....	5-23
5.06.03 Expansion Joint Work Recommendations .....	5-29
5.06.04 Expansion Joint Request for Action .....	5-29
5.06.05 Expansion Joint In-Depth Inspection .....	5-30
5.07 Other Joints (BSIR #3) .....	5-33
5.07.01 Other Joint Routine NBI Inspection .....	5-33
5.07.02 Other Joint Michigan Bridge Element Inspection .....	5-34
5.07.03 Other Joint Work Recommendations .....	5-36
5.07.04 Other Joint Request for Action .....	5-37
5.07.05 Other Joint In-Depth Inspection .....	5-37
5.08 Railings (BSIR #4) .....	5-38
5.08.01 Concrete Railing Routine NBI Inspection .....	5-42
5.08.02 Concrete Railing Michigan Bridge Element Inspection .....	5-43
5.08.03 Steel Railing Routine NBI Inspection .....	5-45
5.08.04 Steel Railing Michigan Bridge Element Inspection .....	5-46
5.08.05 Timber Railing Routine NBI Inspection .....	5-48
5.08.06 Timber Railing Michigan Bridge Element Inspection .....	5-50

**MICHIGAN STRUCTURE INSPECTION MANUAL**  
**BRIDGE INSPECTION – TABLE OF CONTENTS**

5.08.07 Railing Work Recommendations .....	5-50
5.08.08 Railing Request for Action .....	5-51
5.08.09 Railing In-Depth Inspection .....	5-52
5.09 Sidewalks or Curbs (BSIR #5) .....	5-55
5.09.01 Concrete Sidewalk or Curb Routine NBI Inspection .....	5-56
5.09.02 Concrete Sidewalk or Curb Michigan Bridge Element Inspection .....	5-57
5.09.03 Steel Sidewalk or Curb Routine NBI Inspection .....	5-58
5.09.04 Steel Sidewalk or Curb Michigan Bridge Element Inspection .....	5-60
5.09.05 Timber Sidewalk or Curb Routine NBI Inspection .....	5-62
5.09.06 Timber Sidewalk or Curb Michigan Bridge Element Inspection .....	5-63
5.09.07 Sidewalk or Curb Work Recommendations .....	5-63
5.09.08 Sidewalk or Curb Work Request for Action .....	5-64
5.09.08 Sidewalk or Curb In-Depth Inspection .....	5-65
5.10 Deck Bottom Surface (BSIR #6) .....	5-67
5.10.01 Concrete Deck Bottom Surface Routine NBI Inspection .....	5-67
5.10.02 Concrete Deck Bottom Surface Michigan Bridge Element Inspection .....	5-69
5.10.03 Steel Deck Bottom Surface Routine NBI Inspection .....	5-71
5.10.04 Steel Deck Bottom Surface Michigan Bridge Element Inspection .....	5-72
5.10.05 Timber Deck Bottom Surface Routine NBI Inspection .....	5-72
5.10.06 Timber Deck Bottom Surface Michigan Bridge Element Inspection .....	5-73
5.10.07 Deck Bottom Surface Work Recommendations .....	5-73
5.10.08 Deck Bottom Surface Request for Action .....	5-74
5.10.09 Deck Bottom Surface In-Depth Inspection .....	5-75
5.11 Deck (BSIR #7, SI&A Item 58) .....	5-79
5.11.01 Concrete Deck or Slab Routine NBI Inspection .....	5-79
5.11.02 Concrete Deck or Slab Michigan Bridge Element Inspection .....	5-81
5.11.03 Steel Deck Routine NBI Inspection .....	5-84
5.11.04 Steel Deck Michigan Bridge Element Inspection .....	5-85
5.11.05 Timber Deck Routine NBI Inspection .....	5-86
5.11.06 Timber Deck Michigan Bridge Element Inspection .....	5-88
5.11.07 Deck Work Recommendations .....	5-88
5.11.08 Deck Request for Action .....	5-88
5.11.09 Deck In-Depth Inspection .....	5-88
5.12 Drainage (BSIR #8) .....	5-89
5.13 Stringer (BSIR #9, SI&A Item 59 - Superstructure) .....	5-90
5.13.01 Reinforced Concrete Tee Beam Routine NBI Inspection .....	5-90
5.13.02 Concrete Tee Beam Michigan Bridge Element Inspection .....	5-92
5.13.03 Cast-In-Place Slab Routine NBI Inspection .....	5-94
5.13.04 Cast-In-Place Slab Michigan Bridge Element Inspection .....	5-95
5.13.05 Precast Slab Routine NBI Inspection .....	5-96
5.13.06 Precast Slab Michigan Bridge Element Inspection .....	5-97

7.07.01 FCM Inspection Procedures – Team Leader Responsibilities.....	7-6
7.08 Inspection Frequency.....	7-7
7.09 Entering the Inspection Report.....	7-7
7.10 FCM Preservation.....	7-12

**CHAPTER 8 – UNDERWATER INSPECTION**

8.01 Purpose.....	8-1
8.02 Underwater Inspection Methods.....	8-1
8.03 Underwater Diving Levels of Inspection Intensity.....	8-2
8.04 Types and Frequency of Underwater Inspection.....	8-2
8.05 Underwater Inspector Qualifications.....	8-4
8.06 Underwater Inspection Procedures.....	8-5
8.06.01 Underwater Inspection Procedures – Bridge Owner Responsibilities.....	8-5
8.06.02 Underwater Inspection Procedures – Team Leader Responsibilities.....	8-6
8.07 Bridge Safety Inspection Report.....	8-8
8.08 Underwater Inspection Report.....	8-9

**CHAPTER 9 – DAMAGE INSPECTION**

9.01 Purpose.....	9-1
9.02 Types of Damage Inspection.....	9-1
9.03 Damage Inspection Procedures.....	9-2
9.04 Damage Inspection Procedures – High Load Impacts.....	9-3
9.04.01 High Load Hit Impact Procedures - Steel Superstructure.....	9-4
9.04.01 High Load Hit Impact Procedures - Concrete Superstructure.....	9-5
9.05 Damage Inspection – Fire Damage Procedures.....	9-5
9.09 Damage Inspection – Movable Bridge and Vessel Impact Procedures.....	9-6
9.07 Documenting Damage Inspections.....	9-7
9.08 Obtaining the Traffic Crash Report.....	9-8
9.09 Initiating the Claim Process.....	9-8

**CHAPTER 10 – CRITICAL FINDINGS**

10.01 Purpose.....	10-1
10.02 Documenting Critical Findings.....	10-2
10.02.01 Entering the RFA in MiB <sup>RIDGE</sup> .....	10-2
10.03 Critical Finding Procedures – Inspection Team Leader Responsibilities.....	10-9
10.04 Critical Finding Procedures - Load Rating Engineer Responsibilities.....	10-10
10.05 Critical Finding Procedures – Bridge Owner Responsibilities.....	10-11

## **MICHIGAN STRUCTURE INSPECTION MANUAL**

### **BRIDGE INSPECTION – TABLE OF CONTENTS**

10.05.01 Critical Finding Procedures - Bridge Owner Responsibilities (MDOT Owned).....	10-11
10.05.02 Critical Finding Procedures - Bridge Owner Responsibilities (LA Owned).....	10-12
10.05.03 Critical Finding Procedures - Bridge Owner SI&A Coding Responsibilities.....	10-12
10.06 Bridge Program Manager Responsibilities.....	10-13
10.07 FHWA Notification of Critical Findings.....	10-14
10.08 Critical Finding Examples.....	10-14
10.08.01 Critical Finding Examples – Damage Inspection.....	10-15
10.08.02 Critical Finding Examples – Scheduled Bridge Safety Inspection.....	10-18
10.09 Completing the RFA Process.....	10-19

#### **CHAPTER 11 – INSPECTION EQUIPMENT**

11.01 Purpose.....	11-1
11.02 Routine Inspection Equipment.....	11-2
11.03 Fracture Critical, Damage, and In-Depth Inspection Equipment.....	11-3
11.04 Confined Space and Underwater Diving Inspection Equipment.....	11-4
11.05 Equipment Procedures.....	11-5

#### **CHAPTER 12 – NON-NBI STRUCTURES**

12.01 Purpose.....	12-1
12.02 Documenting Non-NBI Inspections.....	12-1
12.03 Inspector Qualifications.....	12-2
12.04 Culverts.....	12-2
12.05 Railroads over Highway (“X”) Structures.....	12-4
12.06 Pedestrian Bridges.....	12-4

#### **CHAPTER 13 – BRIDGE INSPECTION SAFETY**

13.01 Purpose.....	13-1
13.02 Responsibilities.....	13-1
13.03 Personal Protective Equipment.....	13-2
13.04 Working Near Traffic.....	13-2
13.05 Fall Protection.....	13-3
13.06 Power Lines.....	13-3
13.07 Confined Spaces.....	13-4
13.08 Working Over or Near Water.....	13-4
13.09 Extension Ladders.....	13-5
13.10 Asbestos.....	13-5
13.11 Histoplasmosis.....	13-5
13.12 Emergency Equipment.....	13-5
